The All Day Complex Case Studies based on AMA Guides 5th edition Workshop on Sunday, October 23, is specifically designed for doctors of all specialties, as well as psychiatrists, psychologists, internal medicine, physiotherapist, occupational therapist, lawyers and others who have already been trained in the use of the AMA guides 5th edition and now want to take their skills to the next advanced level. This workshop will cover 20 case studies including psych and internal medicine cases that would enhance the skills beyond the initial training in the AMA guides 5th ed. Anyone who has attended a one or two day AMA guides fifth edition training previously should consider attending this new and advanced Complex cases studies workshop as it would help them advance their skills in the use of AMA5.

**How ABIME Certification
Advances Your Career**

Certification through the American Board of Independent Medical Examiners (ABIME) sets you apart as an Internationally recognized medical examiner. ABIME certification represents the pinnacle of professional competency and integrity, instilling greater client confidence in your capabilities and identifying you as an experienced physician who understands the unique issues of disability evaluation. Doctors certified by ABIME meet the demand for quality, impartial impairment and disability evaluations. A 4-hour Online Exam will be offered on October 23, 2021 and requires a separate application. Please visit www.abime.org for details and the application process.

Invitation from Professor Mohammed Ranavaya, MD, JD, FRCP

Please accept my invitation to attend an upcoming *American Medical Association Guides to the Evaluation of Permanent Impairment (AMA Guides) 5th ed.* training with focus on Advance Case Studies on October 22th and 23rd 2021.

Due to COVID 19 travel restrictions all over the world this training will be provided as live lectures by video linked virtual seminar i.e. webinar with zoom technology and the software is very simple and easy to work with. You will be connected to live class room with a simple click on your computer or other on line device.

Following are some of the features of such training for you to consider:

1. **This 2 days training, 8 hours each in the use of AMA Guides 5th edition and Case studies etc. will begin Friday, October 22, 2021 at 4 PM US Eastern Time (New York time), which will be the following day (Saturday) 6 AM Australia Eastern time (AEST) and conclude at 3:00 PM AEST local time. The second day will follow the same timing.**
2. This will be a live webinar by Zoom webinar technology and there will be no permission to record it. Only registered individuals would be permitted to attend.
3. I will be conducting this seminar live from our telehealth communication center on our professional Zoom webinar platform.
4. Our IT team would provide easy to follow instruction and would also conduct a trial run with you 3 days before the work shop to sort out any problems and trouble shoot any issues to avoid last minute hassles.
5. Eight-hour long sessions would be carried out on Saturday and Sunday, very similar to the actual training seminars in person delivered previously in Australia.
6. There will be no additional cost to any attendees, other than the standard tuition fees for the courses as usual.
7. Attendees will need an Internet connected computer or other device that can run Google Chrome browser or Microsoft Edge which is downloadable without any cost and very easy to do.
8. The attendee would need to have a Webcam and microphone attached to their device. Each attendee would be monitored throughout the session to ensure the attendance and presence during the lecture. This would mimic a live training as nearly as possible.
9. The tuition fees and other credits will remain the same.
10. Each one of you would need an AMA Guides 5th ed. Book in front of you to learn as I would directly teach from the book. There would be no handout material.
11. Each attendee will receive the same certificate of training from the American Board as the attendees of in person program receive. In other words, there will be no difference in this virtual training from live in person training except I will be at Marshall University in US and you will be attending it from your home or offices.
12. Each attendee would be able to communicate directly with me during the seminar via Webcam.
13. Each one of you will have to sign in the registration via a link to ensure compliance with ABIME accreditation.
14. There will also be a secure online ABIME CIME exam for those of you who wish to sit for the exam. So, the entire ABIME CIME certification process can be done in a virtual environment.

Whether you are a beginner or experienced user of the *AMA Guides*, you will find this training very useful in enhancing your skills to perform a high quality, valid impairment rating using the *AMA Guides 5th ed.*

I am grateful to all of you for tremendous support that ABIME and I have received through the years and I look forward to continue sharing with you the *AMA Guides* knowledge skills and abilities.

Mohammed Ranavaya, MD, JD, MS, FRCP, FFOM - President, ABIME
