Invitation from Mohammed Ranavaya, MD, JD, FFOM

Associate Dean and Professor of Occupational and Disability Medicine
Joan C. Edwards School of Medicine, Marshall University, Huntington, WV
AND Datuk Dr. Hafez Hussain--CEO PERKESO Rehabilitation Centre

On behalf of the American Board of Independent Medical Examiners (ABIME) and PERKESO, we are pleased to extend to you a formal invitation to participate in a comprehensive AMA Guides to the Evaluation of Permanent Impairment, Sixth Edition (AMA6) training program to be held in Kuala Lumpur on October 2, 2025.

Each year, thousands of individuals sustain personal injuries—ranging from workplace incidents to road traffic accidents—that require objective, independent medical evaluations to support fair and equitable decisions in compensation systems. The AMA Guides, represents the most current, evidence-based, and internationally recognized methodology for conducting valid impairment assessments. It has become the global benchmark in the field of disability and impairment evaluation.

American Board (ABIME), a pioneering global academic-affiliated institution, has been at the forefront of training tens of thousands of physicians worldwide in the application of the AMA Guides and its evolving methodologies. For this special event, we have assembled an internationally respected faculty, including members who have served as senior editors and principal authors of the AMA Guides.

This training program offers participants direct, first-hand insight into the AMA6 methodology, including key principles, major conceptual & scientific underpinnings of the Guides. The faculty will address the most pressing and frequently encountered issues in the practical implementation of AMA6, including complex case evaluations, medico-legal controversies, and strategies for managing difficult claimants in impairment and disability assessments.

This high-level educational event is essential for any professional engaged in personal injury evaluations, disability assessments, impairment rating reviews, or those serving as medical expert witnesses. Whether you are newly introduced to the AMA Guides or a seasoned evaluator, this program will enhance your expertise and strengthen your capacity to deliver accurate, defensible, and scientifically grounded expert medicolegal assessment of personal injury claims.

We look forward to your participation in this important program.

Mohammed Ranavaya, MD, JD, MS, FRCP, FFOM - President, ABIME
Datuk Dr. Hafez Hussain--CEO PERKESO Rehabilitation Centre
